The American Joint Committee on Cancer (AJCC) as well as the International Union Against Cancer (UICC) recommend TNM staging, which is a two step procedure. Their TNM system, which they now develop jointly, first classifies cancer by several factors, T for tumor, N for nodes, M for metastasis, and then groups these TNM factors into overall stages as shown in their table.

### **Lung cancer staging - Wikipedia**

Colon cancer staging is an estimate of the amount of penetration of a particular cancer. It is performed for diagnostic and research purposes, and to determine the best method of treatment. The systems for staging colorectal cancers depend on the extent of local invasion, the degree of lymph node involvement and whether there is distant metastasis. ...

Introduction. Staging of cancer of the esophagus and esophagogastric junction (EGJ), presented in chapter 16 of the 8th edition American Joint Committee on Cancer (AJCC) Cancer Staging Manual (), was derived from a machine-learning analysis of data from six continents from the Worldwide Esophageal Cancer Collaboration (WECC) (2-7). The purpose of this manuscript is to review staging in the 8th ...

SEER is an authoritative source for cancer statistics in the United States. The Surveillance, Epidemiology, and End Results (SEER) Program provides information on cancer statistics in an effort to reduce the cancer burden among the U.S. population.

### **Surveillance, Epidemiology, and End Results Program**

After someone is diagnosed with Hodgkin lymphoma (HL), doctors will try to figure out if it has spread, and if so, how far. This process is called staging. The stage of a cancer describes how much cancer is in the body. It helps determine how serious the cancer is and how best to treat it. Doctors ...

**INTRODUCTION** — Colorectal cancer (CRC) is a common and lethal disease. It is estimated that approximately 145,600 new cases of large bowel cancer are diagnosed annually in the United States [], including approximately 101,420 colon and 44,180 rectal cancers. Approximately 51,020 Americans are expected to die of large bowel cancer each year.
