Doctor is an academic title that originates from the Latin word of the same spelling and meaning. The word is originally an agentive noun of the Latin verb docere Latin pronunciation: [dɔːˈkeːrɪ] 'to teach'. It has been used as an academic title in Europe since the 13th century, when the first Doctorates were awarded at the University of Bologna and the University of Paris.

Doctor (title) - Wikipedia

JHC 20.1.1807 p.72 Wynn presented to the House "An account of the number of Lunatics and insane person now confined and under custody, in the different gaols, houses of correction, poor houses and houses of industry, in England and Wales, taken from returns received from several counties, so far as the same can be made." ACCOUNT printed as Appendix 13 p. 444.

A wide variety of foods can cause allergic reactions, but 90% of allergic responses to foods are caused by cow's milk, soy, eggs, wheat, peanuts, tree nuts, fish, and shellfish. Other food allergies, affecting less than 1 person per 10,000 population, may be considered "rare". The use of hydrolysed milk baby formula versus standard milk baby formula does not appear to change the risk.
