

CUT FOLD TECHNIQUES FOR PROMOTIONAL MATERIALS

## cut fold techniques for pdf

The cut-up technique (or *découpé* in French) is an aleatory literary technique in which a written text is cut up and rearranged to create a new text. The concept can be traced to at least the Dadaists of the 1920s, but was popularized in the late 1950s and early 1960s by writer William S. Burroughs, and has since been used in a wide variety of contexts.

A diamond cut is a style or design guide used when shaping a diamond for polishing such as the brilliant cut.Cut does not refer to shape (pear, oval), but the symmetry, proportioning and polish of a diamond. The cut of a diamond greatly affects a diamond's brilliance; this means if it is cut poorly, it will be less luminous.

I first began to fold paper as a child. I quickly found that in origami, extraordinary results could be achieved with a simple sheet of paper. I didn't need tools or equipment to get started, and for me, this attraction still holds good today. While working away from home in the early '70s, I rediscovered...
