

DYNAMICS OF MASS COMMUNICATION THEORY AND PRACTICE

dynamics of mass communication pdf

Mass communication is the study of how people exchange their information through mass media to large segments of the population at the same time with an amazing speed. In other words, mass communication refers to imparting and exchanging information on a large scale to a wide range of people. It is usually understood for relating newspaper, magazine, and book publishing, as well as radio ...

Mass communication - Wikipedia

In social dynamics, critical mass is a sufficient number of adopters of an innovation in a social system so that the rate of adoption becomes self-sustaining and creates further growth. The term is borrowed from nuclear physics and in that field it refers to the amount of a substance needed to sustain a chain reaction. Social factors influencing critical mass may involve the size ...

7 Relativity effects must be considered even at very low sublight speeds. 1) Relative mass increases as velocity gets closer to c, which requires more energy to further accelerate the mass ($E = mc^2$). Scientifically Proven! Challenges of "Manned" Star Flight 2) The passage of time is slower for moving objects when measured with respect to a stationary observer (time dilation).
