Piping or tubing is usually inserted into fittings to make connections. Connectors are assigned a gender, abbreviated M or F. An example of this is a "3/4-inch female adapter NPT", which would have a corresponding male connection of the same size and thread standard (in this case, NPT). Common piping and plumbing fittings. This section discusses fittings primarily used in pressurized piping ...

A fire sprinkler system is an active fire protection method, consisting of a water supply system, providing adequate pressure and flowrate to a water distribution piping system, onto which fire sprinklers are connected. Although historically only used in factories and large commercial buildings, systems for homes and small buildings are now available at a cost-effective price.
