Showing the world that hospice is about more than care for the dying. Hospice and palliative care can make more meaningful moments possible.

National Hospice and Palliative Care Organization

Hospice care in the United States is a type and philosophy of end-of-life care which focuses on the palliation of a terminally ill patient's symptoms. These symptoms can be physical, emotional, spiritual or social in nature. The concept of hospice as a place to treat the incurably ill has been evolving since the 11th century. Hospice care was introduced to the United States in the 1970s in ...
