QA Testing - what is the difference between the test case and a test script . 23 Answers are available for this question.

What is the difference between the test case and a test script

CS-102 Logical Organization of Computers . Aims There are two views of computer architecture. The traditional view, dating back to the IBM System/360 from the early 1960's, is that the architecture of a computer is the programmer-visible view of the machine, while its implementation is the province of the hardware designer.

Academic : Department of Computer Science : University of Pune

Over the past century, personality theory and research has successfully identified core sets of characteristics that consistently describe and explain fundamental differences in the way people think, feel and behave.

Early life. Cicero was born in 106 BC in Arpinum, a hill town 100 kilometers (62 mi) southeast of Rome. He belonged to the tribus Cornelia. His father was a well-to-do member of the equestrian order and possessed good connections in Rome. However, being a semi-invalid, he could not enter public life and studied extensively to compensate.
