Healthy reptiles and amphibians can carry Salmonella and other germs that make people sick—especially young children. Take steps to keep you and your family healthy! Many people think that Salmonella infections are caused only by contaminated food, but you can also get infected by handling reptiles, which include turtles, lizards, and snakes, and amphibians like frogs, and salamanders.

The internet plays an important role in keeping in touch with loved ones both near and far. One-third (33%) of online adults say that the internet has improved their connections with friends “a lot,” and nearly one-quarter (23%) say that it has greatly improved their connections with members of their family.

Touch typing (also called touch type or touch keyboarding) is a style of typing without looking. Although the phrase refers to typing without using the sense of sight to find the keys - specifically, a touch typist will know their location on the keyboard through muscle memory - the term is often used to refer to a specific form of touch typing that involves placing the eight fingers in a ...
