Abiogenesis, or informally the origin of life, is the natural process by which life has arisen from non-living matter, such as simple organic compounds. While the details of this process are still unknown, the prevailing scientific hypothesis is that the transition from non-living to living entities was not a single event, but a gradual process of increasing complexity that involved molecular ...

Life was an American magazine published weekly until 1972, as an intermittent "special" until 1978, and as a monthly from 1978 to 2000. During its golden age from 1936 to 1972, Life was a wide-ranging weekly general interest magazine known for the quality of its photography. Originally, Life was a humor magazine with limited circulation. Founded in 1883, it was developed as being in a similar ...
