Water-hardening group. W-group tool steel gets its name from its defining property of having to be water quenched. W-grade steel is essentially high carbon plain-carbon steel.This group of tool steel is the most commonly used tool steel because of its low cost compared to others.

Tool steel - Wikipedia

Education in the United States is provided in public, private, and home schools.. State governments set overall educational standards, often mandate standardized tests for K–12 public school systems and supervise, usually through a board of regents, state colleges, and universities. Funding comes from the state, local, and federal government. Private schools are generally free to determine ...
