Psychiatric rehabilitation, also known as psychosocial rehabilitation, and sometimes simplified to psych rehab by providers, is the process of restoration of community functioning and well-being of an individual diagnosed in mental health or mental or emotional disorder and who may be considered to have a psychiatric disability.. Society affects the psychology of an individual by setting a ...

Psychiatric rehabilitation - Wikipedia

Addiction is a complex but treatable disease that affects brain function and behavior. Drugs of abuse alter the brain's structure and function, resulting in changes that persist long after drug use has ceased. This may explain why drug abusers are at risk for relapse even after long periods of abstinence and despite the potentially devastating consequences.
