The Glass Smart Mirror in 13/64" thickness has a reflection that is identical to a standard mirror and it is more transparent than the Glass Two Way Mirror. This means that for TV Mirror projects (typically in the bathroom) will not need to buy matching mirrors – you can use regular Standard Mirrors for the other mirrors in the room and there will be no visible difference.

Smart growth is an urban planning and transportation theory that concentrates growth in compact walkable urban centers to avoid sprawl. It also advocates compact, transit-oriented, walkable, bicycle-friendly land use, including neighborhood schools, complete streets, and mixed-use development with a range of housing choices. The term "smart growth" is particularly used in North America.

Smart growth - Wikipedia

A smart grid is an electrical grid which includes a variety of operation and energy measures including smart meters, smart appliances, renewable energy resources, and energy efficient resources. Electronic power conditioning and control of the production and distribution of electricity are important aspects of the smart grid. Smart grid policy is organized in Europe as Smart Grid European ...
