the concept of passivity pdf

Deference (also called submission or passivity) is the condition of submitting to the espoused, legitimate influence of one's superior or superiors. Deference implies a yielding or submitting to the judgment of a recognized superior, out of respect or reverence. Deference has been studied extensively by political scientists, sociologists, and psychologists.

We examine when it is possible to locally extract energy from a bipartite quantum system in the presence of strong coupling and entanglement. Using techniques from semidefinite programming, we find necessary and sufficient conditions for such extraction to be impossible, fully characterizing this distinct notion of passivity.
