Summary. Koller slays Weber, the German guard who tortured him, and then is slain himself as the camp comes under the guards' fire. There are survivors, however, like Joseph Bucher and Ruth Holland, whose lives justify the fight and testify to the spark of life that inspired Koller and his comrades to assert their right to exist.

The case also addresses the more speculative implications about where these reactions may have taken place to create the organic building blocks of life on this planet. The first three parts of the case, which explore the Miller-Urey experiment, are ideal for introductory biology courses and take about 45-50 minutes to complete.
